**SCHOOLS**

**WITH**

**EMERGENCY**

**SOLUTIONS**

NaviGate Prepared is a virtual safety preparedness solution uniquely designed for K-12 schools. With a holistic suite of emergency preparedness tools, NaviGate Prepared empowers schools to develop and execute effective safety programs that prepare staff and students to confidently respond in emergency situations.

#### **Safety Plans**

Quickly and easily create a comprehensive safety plan for each school with our Safety Plan Wizard.

#### **Drill Logs & Scenarios**

Schedule, log, post to your website, and track drill progress for each school. Implement real-world scenarios for more effective drills.

#### **Virtual Binders**

Organize and share safety documents from one central location. Eliminate printing costs and improve accuracy.

#### **Flipcharts**

Provide staff with quick access to current, step-by-step emergency procedures directly on their smart phone or tablet.

#### **Floor Plans & Site Plans**

Color code rooms and identify life safety equipment throughout each building. Easily share with first responders.

#### **Respond**

Empower staff to account for students by name during drills and emergencies—improving speed and accuracy while reducing stress.

**WE FOCUS ON  
SCHOOL SAFETY,  
SO YOU CAN  
FOCUS ON  
YOUR STUDENTS**

Your dedicated implementation specialist provides oversight and training, in addition to SIS integration, for a hassle-free onboarding experience. And our How-to Guide library and free webinars allow you to learn about new features and refresh your knowledge on-demand.

**OnSite Implementation Service**

Take advantage of NaviGate Prepared's OnSite Implementation Service to integrate highly detailed floor plans into your system in less time, without impacting your responsibilities or resources.

Our implementation professionals ensure an effective set up by:

- Photographing key areas such as storage areas, labs and mechanical rooms
- Photographing classrooms and other areas using photos and 360° images
- Uploading floor plans
- Color coding rooms and spaces
- Attaching photographs to maps and floor plans
- Attaching icons for shut-off valves, life-safety item locations, and much more

**“NaviGate Prepared helped us take a step back and ask ourselves the tough questions. It made us questions if we are doing everything possible for the safety of our students. Because if we aren’t doing everything we can, are we really putting our students first? I can now sleep easily at night knowing that we are.”**

Jim McKay, Superintendent  
Community High School District #117
